Exprimez votre créativité et optimisez votre espace!

(PT)

A GOSIMAT acaba de lançar a nova marca GS CONCEPT, que inclui as inovadoras gamas de Roupeiros e Closets onde os distintos materiais e o design contemporâneo e sofisticado definem o seu carisma e imagem de marca.

O forte know-how combinado às avançadas tecnologias de produção, proporcionou o lançamento de linhas diferenciadoras e modernas, adaptadas aos mais elevados padrões de exigência do mercado.

Para além da abrangência da oferta, diferenciamos-nos também pelas soluções altamente personalizadas, com uma excelente capacidade de adaptação em obra, e pela fabricação própria GOSIMAT, que respeita rigorosos procedimentos de qualidade.

São diversas as soluções e possibilidades de conjugação para criar espaços marcadamente elegantes, acolhedores e de requinte!

(EN)

GOSIMAT has just launched the new GS CONCEPT brand that includes the innovative ranges of Wardrobes and Closets where the distinct materials and the contemporary design define its brand image.

The strong know-how combined with the most advanced production technologies provided the launch of differentiating and modern lines, adapted to the highest demands of the market.

We also stand out for the highly personalized solutions, with an excellent adaptability on site, and by our own manufacturing, which respects strict quality procedures.

The list of solutions and possibilities of conjugation is endless allowing to create spaces that are remarkably elegant, welcoming and sophisticated!

(FR)

GOSIMAT vient de lancer la nouvelle marque GS CONCEPT qui comprend les gammes innovantes de placards et de dressings où les matériaux distincts et le design contemporain définissent son image de marque.

Le solide savoir-faire combiné aux technologies de production les plus avancées a conduit au lancement de lignes différenciées et modernes, adaptées aux plus hautes exigences du marché.

En plus de la diversité de l'offre, nous nous différencions par des solutions hautement personnalisées, avec une excellente adaptabilité sur chantier et par notre propre fabrication qui respecte des procédures de qualité strictes.

Nous offrons plusieurs solutions et possibilités de conjugaison pour créer des espaces remarquablement élégants, accueillants et raffiné !

Contre-chambranles de finition de 70 mm.

RECOMENDAÇÕES DE UTILIZAÇÃO

USE RECOMMENDATIONS | RECOMMANDATIONS D'UTILISATION

(PT)

Para obter o maior rendimento de espaço possível no seu roupeiro, é necessário ter em conta algumas recomendações de organização. Cada módulo deve conter três a quatro zonas de arrumação e estas devem ser utilizadas da forma mais viável e funcional possível.

Toda a construção do roupeiro pode ser feita à medida e a GS CONCEPT coloca à sua disposição inúmeras tipologias, ferragens e complementos para conseguir a perfeita disposição e ergonomia.

(EN)

To get the most storage space possible in your wardrobe or closet, you need to consider some organizational recommendations. Each module should contain 3 or 4 storage areas and should be used in the most clever and functional way possible.

The entire construction of the wardrobe can be custom made and GS CONCEPT offers many different module design types, hardware and accessories to grant you the best storage solution.

(FR)

Pour optimiser l'espace et la capacité de rangement dans votre placard, il faut considérer certains conseils d'aménagement. Chaque module devrait contenir 3 à 4 zones de rangement et doit être utilisé de la manière la plus astuce et fonctionnelle possible.

Toute la structure du placard peut être faite sur mesure et GS CONCEPT met à votre disposition des nombreux types des modules, matériaux et accessoires pour obtenir l'aménagement parfait.

RECOMENDAÇÕES

■ Zona 1

(Desde o solo até 600mm de altura): Ideal para colocar objetos pesados e volumosos. Também é indicada para módulos de gavetas com corredeiras.

■ Zona 2

(600- 1900mm de altura): Pode colocar todo o tipo de arrumação, especialmente os elementos que necessita com maior frequência, devido ao seu fácil acesso.

■ Zona 3

(1900 – 2600mm de altura): Evite colocar objetos demasiado pesados e que necessita aceder frequentemente.

Recommendations

Section 1

(From the floor to 600 mm height): Ideal for placing heavy and bulky objects. Also, suitable for drawer modules.

Section 2

(600 – 1900 mm height): For all types of storage, especially the elements you need on a daily basis.

Section 3

(1900 – 2600 mm height): Perfect for seasonable clothes storage. Avoid placing heavy objects and of frequent use.

Recommendations

Zone 1

(Entre le sol et 600 mm d'hauteur): Idéal pour ranger des objets lourds et volumineux ou pour bloc tiroirs.

Zone 2

(600 – 1900 mm d'hauteur): Pour tous les types de rangements, en particulier les éléments utilisés quotidiennement.

Zone 3

(1900 – 2600 mm d'hauteur): Pour des vêtements et de linge hors saison. Évitez de ranger des objets trop lourds et d'utilisation fréquente.
